

mara[®]

mara[®]

Innovative, aesthetic
and functional furniture
elements and systems
for office, community
and home.

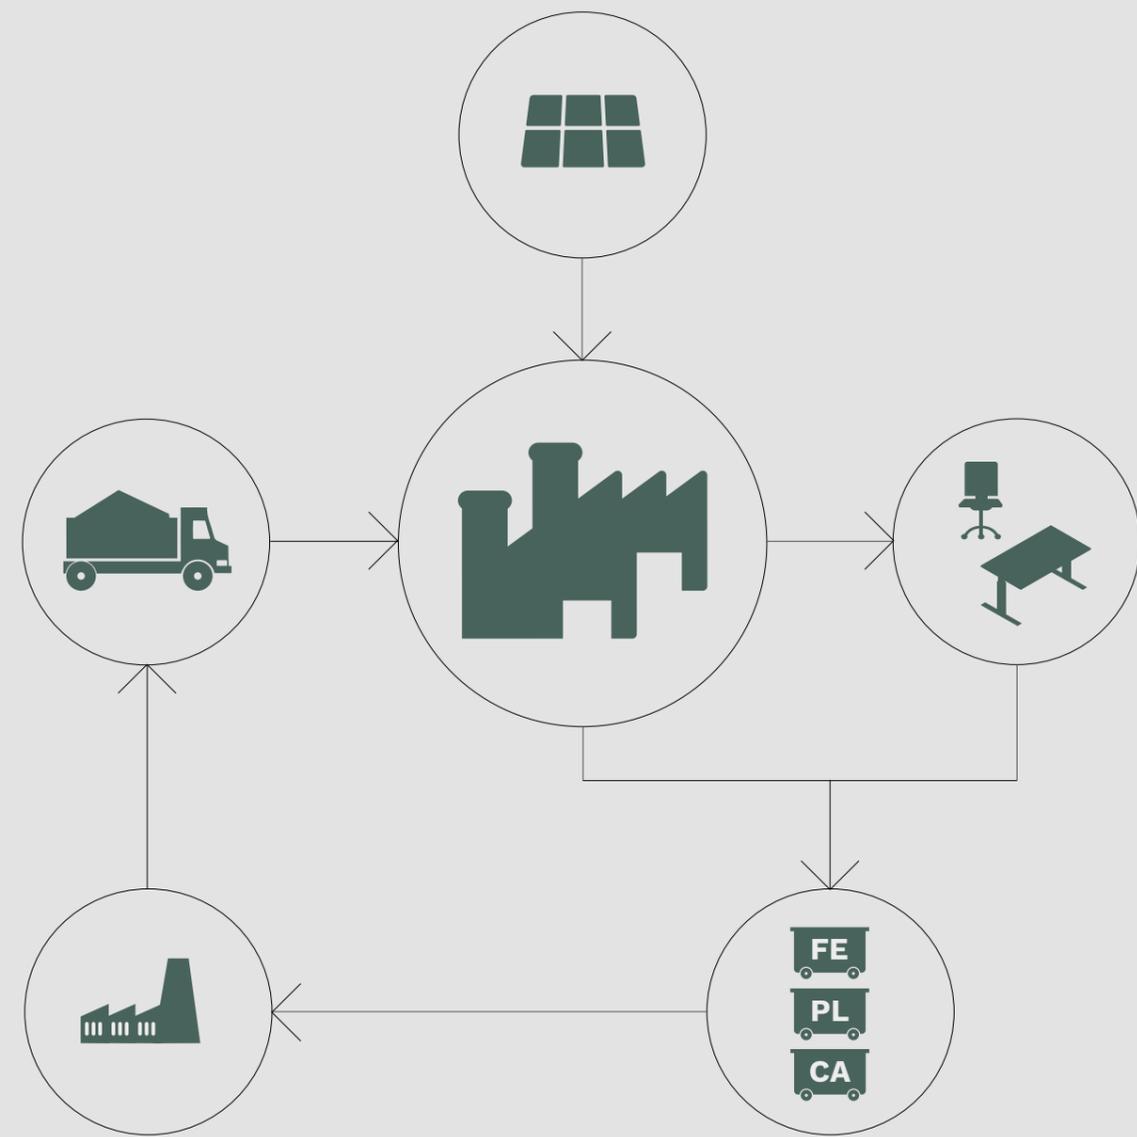

Mara is committed to ensuring respect for the environment, sustainable development and intelligent consumption.

From design to production, each step is carefully thought out and analysed considering its environmental impact, trying to reduce energy waste and material waste to a minimum.

sustainability

/ SUSTAINABILITY

During the production process we pay the maximum attention to the raw materials used, to reduce production waste to a minimum, to separate and reuse/recycle waste. A green policy to guarantee a better future.

energy sustainability

/ ENERGY SUSTAINABILITY

The company, which has invested in renewable energy, currently produces 65% of the energy used in production itself. In 2012, 200 kW of solar panels were installed on the roofs of the production departments. In the same year, began the replacement of all electrical devices with new energy-saving ones.

/ ENERGY SUSTAINABILITY

All the energy used in our company is 100% green and comes exclusively from renewable sources.

**environmental
sustainability**

/ ENVIRONMENTAL SUSTAINABILITY

All our products are designed and developed to be durable. They are easily disassemblable and recyclable at the end of their life.

/ SUSTAINABILITY AND RECYCLABILITY

Frame in steel is recyclable

/ SUSTAINABILITY AND RECYCLABILITY

Seating in multilayer wood, PEFC certified,
that guarantees the wood comes from
forests with controlled felling.
FSC certified products can be supplied
on request.

/ SUSTAINABILITY AND RECYCLABILITY

Components in plastic material
are recyclable

/ SUSTAINABILITY AND RECYCLABILITY

Cr
TRIVALENT CHROME 

All our chrome plated products are processed exclusively with Trivalent Chrome which, unlike hexavalent chrome is free of carcinogenic elements, not produces waste and considerably reduces waste rates.
