"A detailed and precise work about the use of elements where surfaces almost two-dimensional like a folded sheet, are the main component. These surfaces yet blend and combine with other elements that are more volumes and thus have a three-dimensional conformation, where it is perceived the thickness, almost a mass".

"Un lavoro molto approfondito e attento all'uso di elementi in cui le superfici quasi bidimensionali, un foglio piegato, sono l'elemento principale ma queste superfici si fondono, si combinano con degli altri elementi che sono più dei volumi, quindi che hanno una conformazione più tridimensionale dove è percepito uno spessore, quasi una massa".

Icon Soft collection

DESIGN MARCELLO ZILIANI

"A collection that we wanted to express a simple language but at the same time with personality, something that does not want to be formally aggressive or intrusive, but is equally capable of being noticed and remembered, evoking images of familiarity and emotional closeness."

"Una collezione che abbiamo voluto potesse esprimere un linguaggio semplice ma al contempo con personalità, qualcosa che non vuole essere formalmente aggressivo o invadente ma capace ugualmente di farsi notare e ricordare, evocando immagini di familiarità e vicinanza emotiva."
